

Speaker 1

Nine 10s and zero one is how much? One 10 and two 10s is 20. Three 10s is 30. How many is nine 10s? Don't tell her. She needs to figure it out for herself. Bianca? Good, [0:00:38.5 name] are you on to the extra activity?

Speaker

Yes.

Speaker 1

Okay. Three 10s and zero ones is what? Just like over here ...

Speaker

[0:00:57.1] easy.

Speaker 1

Was it easy? One 10 and two ones ... you wrote two 10s and two ones. Okay, [0:01:12.6 name] you'd better go to the office. Jonathan, could you show me the path from one to a hundred?

Speaker

Finished.

Speaker

I finished.

Speaker 1

Draw the path from one to a hundred.

Speaker

I draw the path.

Speaker 1

Draw the path, one, two, three, four, five, six, seven, eight, nine, okay, you have to follow it from one to a hundred.

Speaker

So will I.

Speaker 1

[0:01:48.4 name] I think you're misunderstanding. One to two, three, four, five, six, seven, eight, nine, 10, okay ...

Speaker

Oh.

Speaker 1

.. one at a time, one at a time.
